WELCOME TO AHT

AHT

Welcome to Ali Abdullah Al-Harbi Trading Company (AHT) - your trusted partner for industrial excellence in Saudi Arabia and beyond.

For over four decades, AHT has set the standard in the import and distribution of industrial materials, specializing in black and galvanized steel pipes (ERW and Seamless), Butt-Weld and Threaded pipe fittings, valves, and essential accessories for Chiller Plants, Firefighting systems, and water, oil, and gas pipelines. As a pioneer in supplying Mechanical, Electrical, and Plumbing (MEP) materials, we are proud to support the success of industrial and commercial construction projects across the Kingdom.

Since our founding in 1980, AHT has played a critical role in Saudi Arabia's rapidly growing infrastructure, becoming synonymous with quality, reliability, and efficiency. By leveraging direct relationships with globally renowned Original Equipment Manufacturers (OEMs), we bring world-class products directly to your project site—no middlemen, no unnecessary costs, just seamless delivery of the materials you need.

Our reputation is built on three core principles: integrity, innovation, and performance. Every project we support is a testament to our unwavering commitment to these values. Our leadership team of seasoned professionals, along with a dedicated team of highly qualified engineers, provides not just products, but solutions—offering expert guidance and consultative services that ensure your projects are completed with precision and excellence.

AHT's advanced inventory management systems and extensive warehousing infrastructure allow us to consistently meet your project deadlines, no matter how demanding. With a fast-moving logistics and transportation network, we guarantee timely delivery of materials that keep your operations on track and on budget.

Partnering with AHT means choosing a supplier who understands the stakes of your business. We are more than a supplier; we are your ally in driving success. Let us help you bring your vision to life with the expertise, reliability, and commitment that have made us a leader in the industry.

Our Vision

We are a customer-led, supplier-enabled Distributor.
Our vision is to be the most-reliable and trusted partner for our customers and the preferred route to market for our suppliers all across the Kingdom.

Our Mission

Guided by our vision we shall deliver high-quality, cost-effective products on schedule and enhance our client's satisfaction by establishing long-term relationships and continuous improvement of our business practices in terms of safety, quality, on-time delivery as well as sound environmental awareness policies.

COMMITMENT

We aim on developing everlasting customer relationships based on mutual trust and faith by providing excellent experience, expertise and service during all phases of a project. Our latest technological facilities and products help us to provide our customers with an idealistic experience of purchasing hassle-free.

Committed to satisfy our customers by meeting their requirements at all stages of their projects in the most competitive and efficient manner, we distribute multiple brands of products in a variety of international standards to meet the specific requirements of our customers and their projects.

AHT is committed to providing the highest quality equipment and systems via our team of highly skilled engineers, managers and sales executives who exceed our company's expectations by delivering reliable, cost-effective and productive customer service. This is our utmost priority and a fundamental importance to our continued success in the industry. Our strength lies in our perseverance to deliver the highest grade of products consistently.

UNDERSTANDING

At AHT, we recognize the complexity and pressure of the construction process. As a contractor, your focus is on delivering excellence to the end user, and our role is to support you every step of the way. That's why we are committed to making your job easier by providing exceptional customer service, clear technical guidance, and reliable solutions that keep your project moving forward with confidence.

COMPANY OBJECTIVES

- Achieving operational excellence in all business divisions.
- Be a pioneer supplier of everything related to Mechanical, Electrical and Plumbing materials.
- Becoming strategic partners with reputable contracting companies in MEP activities to have a bilateral benefit.
- Streamlined products ordering and delivery, excellence in project implementation.
- Go above and beyond its commitment to become the most beneficial employer to its employees with an ideal environment, both on and off-work hours.
- Commitment to the development of community and social development.

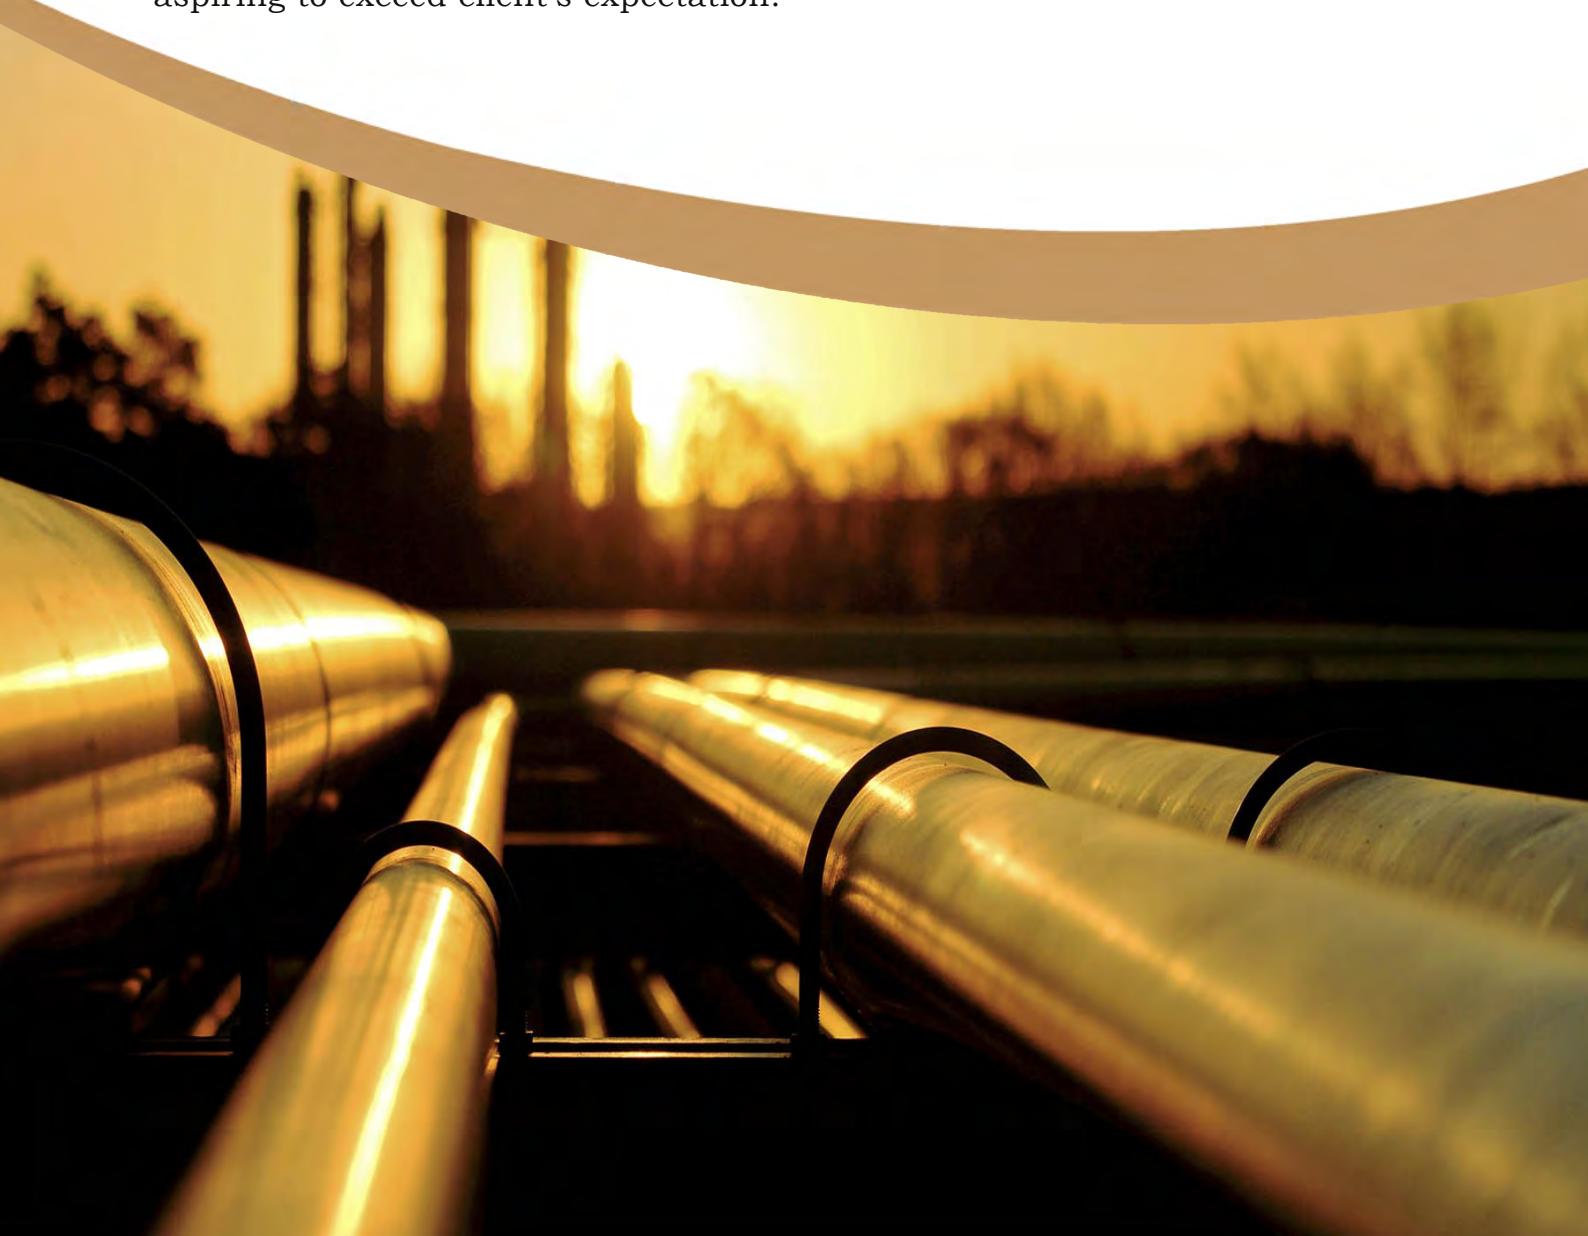

EVOLUTION

- 1980 — Ali Harbi Group established in Saudi Arabia
Business Scope: Trading, Import and Export
- 1990 — Harbyco established in Thailand
Business Scope: Trading
- 1999 — HarbyCo Group Guangzhou branch established in China
Business Scope: Marketing, Construction, Logistics
- 2005 — Tasneem Water established in Saudi Arabia
Business Scope: Mineral Water Bottling Plant
- 2007 — Ali Harbi Factory for Glass established in Saudi Arabia
Business Scope: Glass Processing, Crafting
- 2013 — Harbyco Electronics Technology established in China
Business Scope: Project Designer, Electrical Switch Sockets, Network Cabinets, Voltage Stabilizers

QUALITY POLICY

- Providing quality products and services while focusing on Customer Satisfaction as key indicator of the overall operational success.
- Embedding quality assurance in our material life cycle and transactions, starting from the phase of planning & preparation for procurement through inspection and storage till the phase of dispatch and delivery.
- Enhancing relations with internal and external customers by reinforcing business ethics, being genuine, transparent, efficient and professional.
- Committing to continuously reduce environmental impact, improving the way of doing things, while delivering best products that fits customer's requirement also aspiring to exceed client's expectation.

Steel Pipes

AHT currently carries an extensive range of pipe materials servicing various fluid and fuel conveyance markets. Every step has been taken to ensure that products are certified and supplied in accordance with the relevant quality standard. Each Pipe range is backed by the quality and service commitment provided by AHT.

Available in: Black Steel, Galvanized Steel, Stainless Steel

Specifications: Seamless and ERW-Sch-40, Sch-80, BS Medium

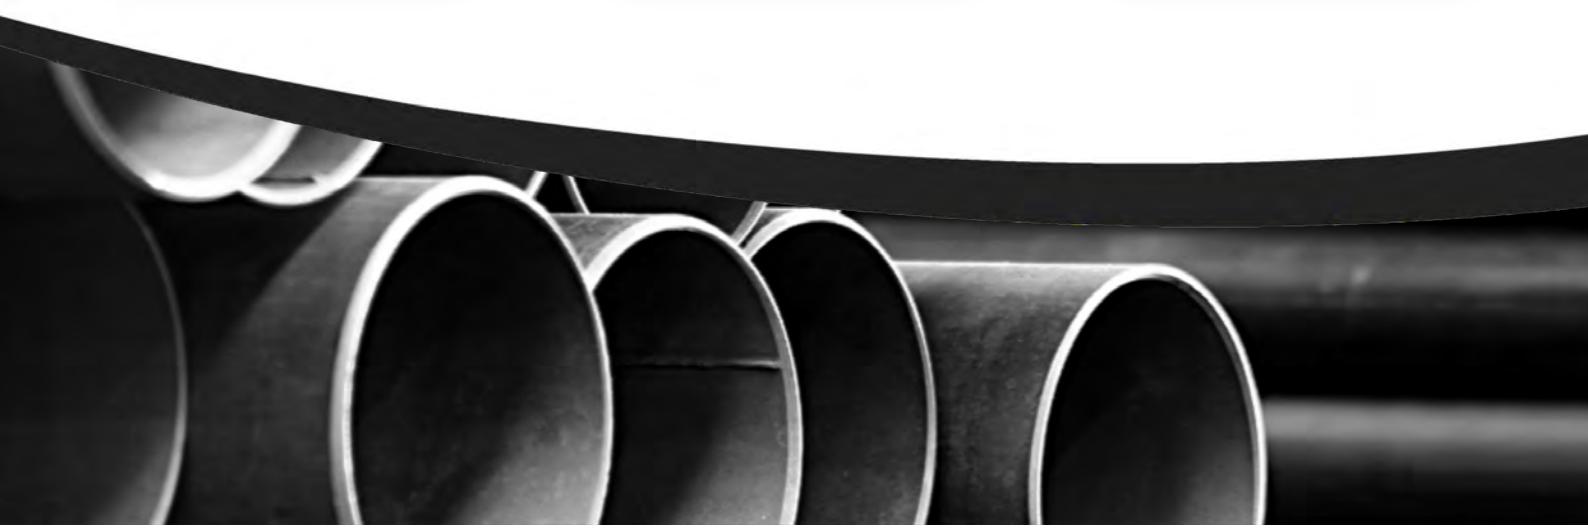

Standards: ASTM A53, API 5L, A106, BS 1387, SASO Standard

Origin: Kingdom of Saudi Arabia, Sultanate of Oman
China, Ukraine

Each Pipe Coupling range distributed by AHT is backed by the quality and service commitment of AHT. Every precaution has been taken to ensure that products are certified and supplied in accordance with the relevant quality standard. The extensive ranges of pipe couplings ensure any pipe material can be coupled with ease.

Fittings

Here at AHT, we stock a wide ranges of fittings in order to connect and redirect relevant pipe work material. An extensive range of high quality fittings are distributed to the various fluid conveyance markets. Each Fitting range distributed by AHT is backed by the quality and service commitment of AHT.

Products:

- Elbows - 90°, 45°
- Tees - Cross, Reducer
- Street Elbow
- Union
- Couplings
- Nipples - Hex, Swedge
- End Cap
- End Plugs & Bushings
- Threaded Outlet

Available in:

- Forged
- Grooved
- Carbon Steel
- Galvanized Steel (GI)
- Black Malleable Iron (BMI)

Types:

- Threaded
- Butt-Weld
- Seamless
- Grooved

Standards:

- Sch-40, Sch-80, ANSI, DIN, NPT, BSPT
- Class-150, Class-300, Class-3000

Brands:

- Benkan (China)
- National (India)
- 100Tong (China)
- Hitachi (Thailand)
- Cougar (Thailand)
- Both-Well (Taiwan)

Flanges

Flanges are supplied in various ranges, types, shapes and specifications to connect and hold pipework. AHT carries an extensive range of internationally approved high quality flanges to cater to the demand of the Gulf markets. Every precaution has been taken to ensure that products are certified and supplied in accordance with the relevant quality standard. Each Flange range distributed by AHT is backed by the quality and service commitment of AHT.

Available in: Grooved
Carbon Steel
Galvanized Steel

Types: Slip-on
Threaded
Weld-Neck
Blind

Standards: ANSI, Class-150, Class-300,
DIN (PN-16)

Brands: KOFCO (China)
National (India)
100Tong (China)

Valves

Valves are devices that regulate, direct or control the flow of fluids (gases, liquids, fluidized solids, or slurries) by opening, closing, or partially obstructing various passageways. AHT carries an extensive range of valves that service the various fluid conveyance industries in Saudi Arabia and the GCC.

Material:
 Cast Iron
 Cast Steel
 Bronze Valves

Available in:
 Gate Valves
 Globe Valves
 Check Valves
 Strainers
 Ball Valves
 Double Regulating Valve (DRV)

Types:
 Flanged
 Threaded
 Class 125, 150, 250, 300
 PN-16, PN-25

Standards: ASTM, ANSI, Din Standard

Brands: Crane (UK)
 Mueller (USA), and more!

Flexible Rubber Joints

Rubber expansion joints are the perfect solution for pipe systems to absorb movements, vibrations or noise, resulting in the significantly prolonged service life of the pipe work and connected equipment.

The inside rubber lining is leak-proof and made of synthetic or natural rubber. This applies also for the outside rubber cover, which has the prime function to protect the canvass, between the cover and the inside lining, from outside damages. The pressure supporting canvass consists of fabric and metal reinforcement, as wire or solid rings.

Types: Single Sphere Connectors
Twin Sphere Connectors
Union Type

Allowable Movements: Axial Compression
Axial Elongation
Transverse Movement
Angular Deflection

Brands: ARMFLEX (Taiwan)
AHT (China)

Pipe Support Hangers

AHT provides an extensive range of pipe supports and hangers. Recommended for the suspension of insulated and non-insulated pipe lines, these UL and FM listed products allow for vertical adjustments. An available UV resistant rubber lining provides noise reduction and vibration control. As always, each product within this range distributed by AHT is backed by our quality and service commitment.

Types:

- Clevis Hanger
- Swivel Ring Hanger
- Split Ring Hanger
- Band Hanger
- U-Bolt

Available in:

- Stainless Steel
- Carbon Steel
- Epoxy Coated
- PVC Coated
- Rubber Lined

Brands:

AHT

Denso Tape

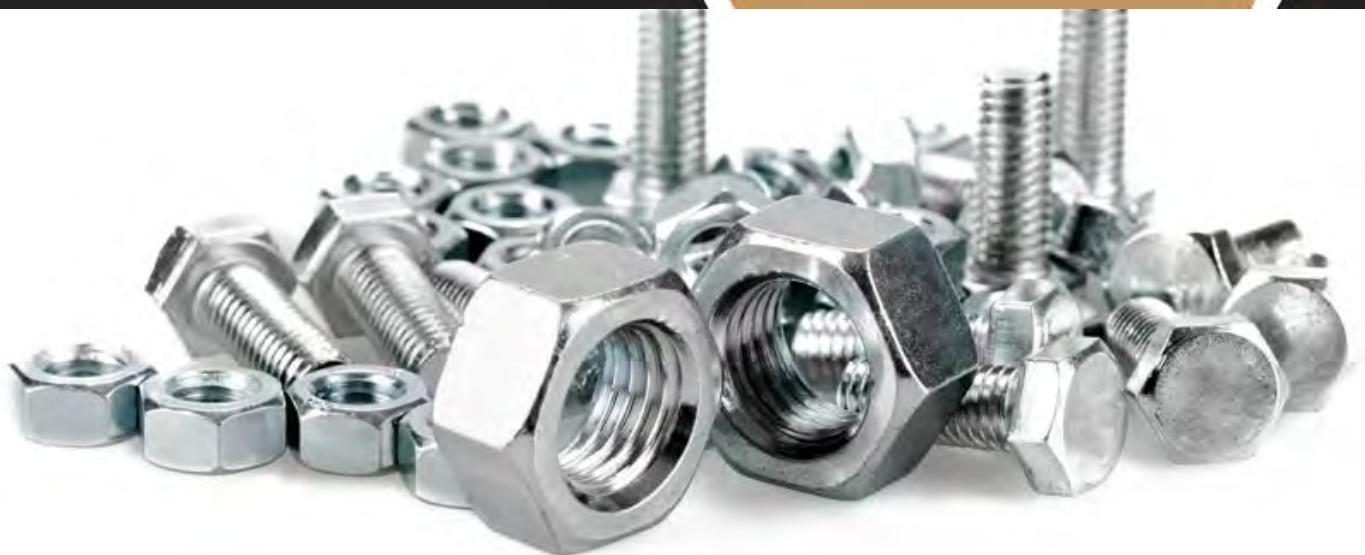

Denso Tape is a cold-applied, anti-corrosion tape product which remains plastic over a wide temperature range. It is non-hardening and non-cracking. It is highly resistant to mineral acids, alkalis, salts and micro-organisms and highly impermeable to water, water vapor and gases.

Denso tapes are used for the protection of underground, underwater, buried or exposed pipes, rods, metal surfaces, cables, valves and metal fittings from corrosion.

Available Sizes: 30 mm, 50 mm, 75 mm, 100 mm
150 mm, 200 mm, 300 mm

Fasteners, Nut Bolts, Threaded Rods

Fasteners are used to create non-permanent joints. When selecting a fastener for industrial applications, it is important to consider a variety of factors. The threading, the applied load on the fastener, the stiffness of the fastener, and the number of fasteners needed should all be taken into account. AHT stocks a wide variety of fasteners including, but not limited to, screws, bolts, nuts, rivets and studs. We also carry threaded rods of varying lengths to accommodate all of your project needs.

Pipe Instrumentation, Sealants, Sprinklers

Being a true one-stop shop for all your electromechanical and firefighting needs, AHT also stocks industry pipe, valve and fitting instruments such as **pressure gauges** and **thermometers**. A wide variety of units in instruments are available to meet the customers' needs of any measuring system. Fire extinguishing **sprinklers** are also available in our inventory of Mechanical, Electrical and Plumbing items.

In addition to these, we also carry a range of sealing and insulation items, chief of which include:

- AFICO Fiberglass Insulations
- Permatex Sealant tubes
- Teflon tapes
- Jute for threaded GI pipes.
